## PROVOCATIVE DESIGN

**Branding through**  
event DESIGN.

Do you blend in or stand out? Our design team ensures that you always stand out and that your message is clear and powerful whether you are planning a fundraiser or corporate dinner. This season, Robert Peczka, Senior Event Specialist at Belle Mer, Newport, is inspired by Pantone color trends while creating modern napkin folds. Like magic, a beautiful textured bengaline napkin turned into a hand rolled buttercup yellow garden rose. Equally gorgeous as unique, this rose enforces image for client whose brand colors are black and yellow.
